YORK HOWELL & GUYMON NAMED AS ONE OF UTAH'S FASTEAST GROWING COMPANIES

York Howell & Guymon was selected as one of the "Emerging Eight" fastest growing companies in 2016 by Utah Business Magazine's Fast 50 awards. The law firm was honored for their entrepreneurial spirit, innovative business tactics, and firm growth.

The Utah Business Fast 50 program highlights 50 rapid growth companies based in Utah who reported consistent revenue progression for at least five years. The Emerging Eight category consists of eight companies who are less than five years old that have exceptional revenue performance and proven high growth potential.

York Howell & Guymon leads the way in practicing law in the 21st century by providing a majority of legal services and client interactions with emphasis on implementing technology where efficiency dictates and allowing billable hours to be spent on the specific needs and personal meetings with clients. The end result is significantly lower legal costs than traditional service models.

"Our company is deeply grateful to receive this recognition after just three years in business," said Andrew L. Howell, co-founder and managing partner of York Howell & Guymon. "This award demonstrates that our firm has flourished in the new technology-driven economy by utilizing ever changing powerful new tools to provide unparalleled legal services in a way clients now expect."

Managing partner Paxton R. Guymon added, "I've been a part of this firm for more than two years now and I am pleased with the quality and compatibility of all of the attorneys and staff who make this firm so successful."
